## "STAR BRIGHT" PLAYED TO CROWDED HOUSE

The play "Star Bright," which was put on in the Elks' Hall here on Friday night last, met with great success and the place was well filled with eager spectators, who enjoyed the play from start to finish.

The play was a comedy-drama in three acts and those taking part were well directed and played their part exceptionally well, the play being a credit to themselves and to their director, G. G. Peters. This play is probably the best that has ever been staged in Carbon with local talent and its success the first evening has encouraged the management to put this play on again, sometime after Christmas.

With the opening of the first act the most noticeable part to the audience was the background, which was specially prepared for the play. This was the painted scene of mountains with a small lake in the distance and numerous trees and foliage scattered over the landscape. The effect was outstanding.

Music for the play, and for the dance following was furnished by Mr. and Mrs. Barr, Dick Gimble and J. Spence.

Those taking part in this local play were as follows:

Lemuel Bright, J. A. MacDonald; William Walker Smith, A. R. Lynn; Walter Williams Smythe, Wm. Edwards; Arthur Pulver (Westcott) E. J. Rouleau; Jake Hoover, Stan Carney; Parson Williams, Jas. Taylor; Honor Bright, Miss Daphne Nash; Star Bright (Madame Ormand) Mrs. L.G. McQuade; Sunshine Bright, Miss Kathleen Watkins; Bird Denton, Miss Kate Ramsay; Melinda Bandy, Mrs. G. G. Peters.

The Community Players chartered the Carbon Bus on Tuesday night and took this play to Beiseker. It was well received there and in spite of the cold weather and the condition of the roads the trip was highly successful.

## BUILDERS HARDWARE STORES, LTD.

Skating in Carbon started last Friday night and the ice is in good shape. The hockey teams are practicing now and it won't be long before some real games will take place.

Curling also started on Wednesday of this week and a draw is being prepared immediately.

TRY OUR CLASSIFIED ADS.

## LITTLE ITEMS OF LOCAL INTEREST

The teacherage at the Lennox school burned to the ground on Tuesday morning. The fire started from an overheated stove sometime after Miss Tobin, the teacher, left for school and the building and contents were a total loss.

Mrs. L. Poxon and Mrs. F. Bessant were Calgary visitors last Friday and returned on Saturday.

Miss Lillian Campbell of Olds was a visitor in Carbon last Friday and Saturday and took in the local play in the Elks hall last Friday.

Jas. Baird of Calgary spent a few days in town last week.

Jake Ohlhauser had the misfortune to overturn his car at the top of the big hill coming into Carbon last Friday. Fortunately no one was injured and about the only damage was a broken window.

**WANTED, Washing.**—Will take in washing or will go out.—Apply to Mrs. F. Gibson, Carbon.

## SKIPS ELECTED AT CURLING MEETING MONDAY NIGHT

At the general meeting of the Carbon Curling Club, held in the Municipal office, the following skips were elected for this winter: Messrs. R. J. Fairbairn, L. Poxon, H. Jealous, Fred Poxon, S. F. Torrance, J. J. Greenan, A. F. McKibbin, Geo. Malton, G. F. McGregor and F. Bessant.

The rinks were chosen on this occasion, but as they are not all complete at the present time we will not publish the list till a later date.

Other matters were discussed and among them was a question of non-curlers playing in the local bonspiel and it was decided that if any curler wished to play in the Carbon bonspiel this year and not a member that he would have to pay the sum of \$7.50 for the privilege.

## King Wheat and Wheat Kings

Canada again this year achieves the distinction of having produced the finest wheat in the world by winning the grain championship at the great International Livestock Show, at Chicago. J. H. B. Smith, of Wolf Creek, Alberta, brings this honor to the Dominion, and the title of wheat king of the world to himself. Thus the world's championship wheat trophy returns to the Dominion after having rested with a Montana man for two years. Canadians held the championship in 1921, 1922, 1923, 1924 and 1926, and the reserve championship in 1927 and 1928.

The winning of this world's championship is not a case of good luck. It is the result of years of careful planning and hard, painstaking study and work. Such an honor only accrues to those who farm in scientific manner, selecting and sowing the best seed, and from year to year learning the lessons of experience. True, they must have the background of good fertile soil, and the right kind of climate. These, fortunately, Canada has in abundance.

Canada's wheat honors are, however, a double triumph for this Dominion. It was in Canada, and through the persevering efforts of a great Canadian, that Marquis wheat was given to the world, a wheat which revolutionized the production of this great cereal grain and added untold millions to the agricultural wealth of this continent. Marquis won many prizes.

This year the grand championship is accorded to Reward wheat, also a Canadian development, or discovery if you will. Canada, too, is leading the world in the efforts put forth to develop a rust-resistant variety of wheat of the highest milling quality and possessing all the essential qualifications of an early ripening variety, just as Canada has the honor of developing the early ripening varieties now in general use.

The bringing back of the world's wheat championship to Canada is a gratifying prelude to the great World's Grain Show and Congress to be held at Regina, Saskatchewan, in 1932. This proposed Grain Show and Congress will be the greatest event of its kind ever held, and the cash prizes to be awarded for grain will exceed anything hitherto offered at any exhibition in the history of the world. Strong committees representative of the Dominion and of each of the nine Provinces of Canada are already at work on the arrangements for this world's gathering three years hence, and it is confidently hoped and expected that between forty and fifty countries will be represented not only by exhibits, but by Government and agricultural representatives. All the world's great leaders in agriculture and the most noted research workers will participate in the Congress, with the result that the eyes of the grain growing world will be centred on Canada as never before.

Canada is already the greatest wheat exporting country in the world, not only in actual volume but also in quality of product. Every world's championship won serves to enhance that reputation, and the Dominion is placed under a lasting obligation to those farmers who, like Mr. Smith and his predecessors in winning championships, devote their time and energies to achieve such successes.

The year 1932 is not very far away. It is not too early, nor is it too late, for many more of our Canadian grain growers to lay their plans and begin work with a view to winning for themselves and for their Province and Dominion the title of World's Wheat King, 1932. Such a title awarded at the Regina Show will, in view of the much wider field of competition, be a much greater title than that awarded annually at the Chicago International.

Canada's farmers should vie with one another in friendly rivalry in an endeavor to retain for this Dominion the world's wheat championship title in each of the years preceding 1932, culminating in a supreme effort to hold the honor at Canada's first World's Fair in the latter year. To retain the title that now, thanks to Mr. Smith's efforts, rests with this Dominion will do much to attract still greater attention to this country in all parts of the world, and will be a powerful factor in bringing additional thousands of visitors to the Dominion in 1932 to make personal investigation and study of this great land.

### "Partnership Spirit" Railway Contribution

Railroad Operation Is a Partnership Proposition, Says Sir Henry Thornton

"We in the railroad industry have come to the point of view that successful railroad operation is a partnership proposition," so declared Sir Henry Thornton, chairman and president of the Canadian National Railways, in addressing the delegates of the first annual meeting of the International Association of General Chairmen, Brotherhood of Railroad Trainmen, in Montreal. Three contributions to the art of transportation had been made by the Canadian National Railways, he said. One was the demonstration that a state-owned railroad could be operated efficiently and without political interference; the second was mechanical—the Diesel electric locomotive, "within its own peculiar limits the most effective transportation machine of which we are aware"; and the third was the development of co-operative effort between the railroad administration and the employees. "The interests of each are the interests of both," said Sir Henry. The co-operative systems on our railroad enable the administration and the employees to join hands in presenting more convincingly to the public the problems of transportation, in showing the public that it is served with vigilance, technical skill and even anxiety at every moment.

### Beware Infection

Infection of cuts and bruises is best prevented by applying Minard's.

W. N. U. 1815

### Film Canadian Scenes

Motion Pictures Now Available and Supplied Free Of Cost By Government

Mr. Harlan I. Smith has made motion picture film during the past few years while doing other work, and from this material has been made up six single reels of films of about one thousand feet titled as follows:

- (1) In Canada's Fjords (showing the Norwegian like character of the country around Bella Coola, B.C., the Norwegian colonists and their methods of earning a living by farming, fishing and logging.)
- (2) The Bella Coola Indians.
- (3) The Carrier Indians.
- (4) The Tsimshian Indians.
- (5) The Coast Salish Indians.
- (6) The Kootenay Indians.

These films are subtitled and are available on application to the Acting Director of the National Museum of Canada, Ottawa, Ontario, Canada. The only expense is the expressage both ways. The films are of standard (35 mm.) width, and so may be shown in motion picture theatres. The negative of Nos. 2, 3, 4, 5 and 6 are in order so that prints may be had from any of them at cost that is with no charge for the use of the negative.

### Sagacity Of Dogs

Incident Would Go To Prove That Man's Faithful Friend Has Reasoning Powers

It is pretty hard to convince people who are much with dogs that dogs don't have reasoning powers. A young Canadian trapper up in Ontario who had accidentally shot himself far from help tied a note to his dog's collar and sent him off toward the nearest camp.

The dog ran through three miles of brush, swam a river and reached the camp, which sent help immediately to his master.

It wouldn't be much use to try to make that trapper believe that his dog doesn't think.—Duluth Herald.

### To Manufacture Combines

Alliance Is Formed Between Australian and Canadian Firms

As a result of an alliance between an Australian manufacturer of a combine harvester-thresher, and a Canadian manufacturer, the Australian machine is to be manufactured by a new \$2,500,000 Canadian corporation at Waterloo, Ont., according to reports sent to the Department of Commerce, by Assistant Trade Commissioner William P. Sargent, at Toronto. The project will give employment to about 1,500 workers.

### RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that thin blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is an impossible task because there is nothing to build up. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism from the system. So long as the blood is maintained in a healthy condition the trouble will not return. This is not theory. It has been proved in hundreds of cases; here is one:—Mr. J. W. Rose, R.R. 2, Albany, P.E.I., says:—"For some years I was a great sufferer from rheumatism and although I tried a great many remedies, I did not get any permanent relief until after I took Dr. Williams' Pink Pills. The trouble was located mostly in my shoulder, and at times was so bad that my right arm was almost useless. Of course I suffered much pain and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this meets the eye of any rheumatic sufferer my advice is try Dr. Williams' Pink Pills at once." You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Preparing For Spring Work

Saskatoon Has Authorized Purchase Of 10,000 Loads Of Stone

As a preliminary for the spring work, the Saskatoon City Council have authorized the purchase of 10,000 loads of stone at a price of \$1.75 per load. Those engaged in the work must be bona fide citizens of Saskatoon and must pay for a city dray license. Stones may be gathered anywhere but along the river bank, which is the property of the Crown, even in the city limits. The stones will be piled in various locations ready for the crusher in the spring.

Persian Balm — alluring, provocative and charming. Fragrant and refreshing as a cool breeze in summer. Delightful to use. Creates complexions of surpassing loveliness. Makes the skin velvety soft in texture. Soothes and dispels all irritations caused by weather conditions. Softens and whitens the hands. Perfect for women who care for charm and sian Balm is a peerless toilet requisite distinction. Use it for hands and face.

A fruit grower near Berlin, Germany, has successfully kept birds from his orchard by connecting a loud speaker to his scarecrow.

Minard's Liniment for Coughs.

There is nothing that pays bigger dividends in comfort than that of pulling up an extra blanket during a night suddenly turned cold.

### Name Stations After Hudson Bay Pioneers

Historical Designations Assigned To Places Along H. B. R. Route

Memories of adventurers who sailed into the Hudson's Bay as far back as 1610, when Henry Hudson discovered this great body of water on the northern shore of Canada, are commemorated in the station names given to that section of the Hudson Bay Railroad between Mileage 412 and Churchill. Churchill now stands as the proper name of the terminus of this railway, it was announced by Canadian National Railways officials. According to the ruling of the Geographic Board of Canada this is the official name, with the dropping of either prefixes "Port or Fort" by which it had been variously designated.

Commencing at Mile 417 the names of stations, with the history and the origin of these names, are as follows: Mile 417, Kellett, after Capt. Kellett, C.B., of R.H.M. "Resolute" to Lancaster Sound, Melville and Banks Islands, 1852-54.

Mile 426, O'Day, after J. E. O'Day, one of the engineers on construction from Amery to Churchill.

Mile 434, Back, after George Back, of the Royal Navy; one of the officers with Sir John Franklin's party to Hudson Bay country in 1819-22.

Mile 442, McClintock, after Capt. F. McClintock, R.N., in Lady Franklin's yacht "Fox," brought back precise information of the fate of Sir John Franklin's ships "Erebus" and "Terror," 1857-59.

Mile 451, Belcher, after Capt. Sir Edward Belcher, C.B., of H.M.S. "Assistance" to Wellington Channel, 1852-54.

Mile 460, Cromarty, after Cromarty, a former Hudson Bay factor at Fort Severn; grandfather of W. G. Cromarty, Birch Hills, Sask.

Mile 469, Chesnaye, after Aubert de la Chesnaye, a merchant and fur trader at Quebec in 1679, who started "The Company of the North." He sent Radisson to Hudson Bay with two vessels, "The St. Anne" and "St. Pierre," in 1682.

Mile 478, Munk, after Jens Munk, who came to Churchill in 1619 in the vessel "Lamprey."

Mile 485, Bylot, after Robert Bylot, one of the crew on Hudson's ship "Discovery," in 1610.

Mile 493, Digges, after an English merchant, who, along with others financed Henry Hudson's trip to Hudson Bay in the "Discovery," in 1610.

Mile 502, Tidal. The tide in Churchill River reaches a point opposite this siding.

Mile 510, Churchill. Not Fort Churchill or Port Churchill, as variously designated. Ruling of Geographic Board of Canada.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often has a permanent effect. Why not get this long-famous remedy today and commence its use? Inhaled as smoke or vapor it is equally effective.

### A Modern Solomon

English Judge Quickly Solved Problem Of Impoverished Debtor

An impoverished debtor recently sought the protection of English law against the alleged continuous persecution of a relentless creditor. The latter, it was alleged, had publicly threatened the debtor with prison, had written communications which had cost his dismissal from several posts of employment, and had sent him dunning letters in the guise of formidable legal documents.

The debt was the sum of £12 9s. 6d. Shylock apparently never pursued Bassanio more relentlessly for the sixteen ounces avoirdupois of poor Antonio. The unhappy debtor, however, needed no modern Portia to plead for leniency. Judge Bradley, of the Blackpool Court, before whom the case was tried, decided it without further ado. He ordered the poor debtor to repay the importunate money lender at the rate of three pence a month, thus ending his embarrassment and granting him eighty years in which to liquidate the claim.

"Isn't dinner ready, dear?"

"You'll have to wait, John, I had to send for the dressmaker to baste the chicken."

Good for Toothache—Minard's Liniment.

### KEEP TRAFFIC MOVING

Pompeii never had traffic problems.

In the human system, as in modern cities, the great need is to keep the traffic moving. A slight obstruction may cause very serious consequences.

The road to health in the human body—The intestine—is 32 feet long. Think how easy it is for this long tube to become clogged. Think how essential it is to keep it healthy and active.

You cannot alibi by saying "I cannot go because I have a sick headache." You cannot plead indigestion or biliousness or constipation. It simply isn't done. You cannot confess that you are a victim of self poisoning from half digested food lying in the intestines, decaying and generating poisons which cloud the eye, blotch the skin and stupefy the brain. Don't put off or delay. Try what a little friendly aid will do. CARTER'S LITTLE LIVER PILLS. Red Packages all druggists 25 cents.

### Way Of The World

Public Entertainer Is Bigger Hero Than Cleverest Scientist

When Madame Curie, the co-discoverer with her husband of radium, left Paris to attend the celebration in the United States in honor of Edison, a great throng appeared at the depot and wild hurrahs rose from the people. On her return, another great throng attended, the depot was specially illuminated, and there was ecstatic cheering.

But neither of these demonstrations was for Madame Curie. Few people noticed her at all. The send-off was for Maurice Chevalier, a French vaudeville star and movie actor, who was also going to New York, and the welcome was for Pola Negri and Alice Terry, movie actresses, who arrived by the same train as Madame Curie.

That is the way of the modern world. The public entertainer is the hero and heroine of the day, and no matter what any man or woman may contribute to science, to the relief of human suffering, or the progress of humanity, the public is not interested in them.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines untenable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and their operation is altogether health-giving.

### Is Rhodes Scholar

Manitoba University Student Chosen Of Provincial Selection Committee

J. Robert Beattie, of Winnipeg, was elected Manitoba Rhodes scholar for 1929, at a meeting of the provincial selection committee. Mr. Beattie is a student at the University of Manitoba, and he will go into residence at Oxford in the fall of 1930.

Born at Greenwood, B.C., Mr. Beattie is 19 years old, the son of John T. Beattie, of the Canadian Bank of Commerce, Winnipeg. He received his early schooling at Melfort, Sask., later attending high schools in Winnipeg, and finally entered the University of Manitoba in 1926.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

Power Plant Nears Completion  
The Calgary Power Company's plant at Ghost River, near Radnor, Alberta, is nearing completion and part of the plant is now in operation.

### Heart and Nerves

Caused Her To Have Cold Hands and Feet

Mrs. Joseph Price, Red Pine, N.B., writes:—"Several years ago I was troubled with my heart and nerves and was so bad, at times, my hands and feet would become numb and cold."

"I happened to see

advertised and started taking them at once. I continued for some little time, and since then I have had no return of my trouble."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**A HOLIDAY TO REST UP**

For some years this country has  
shown a disposition to regard the day  
after Christmas as a holiday. For a  
number of years stores in most of the  
British Columbia towns have remain-  
ed closed on the 26th. This year, we  
are informed, Vancouver stores plan  
to do the same, and with the City of  
Calgary following this custom it does  
not seem that it will be long before  
most of the smaller Alberta towns  
will follow in these footsteps. This  
holiday on the 26th gives employees  
a chance to get away for a day at the  
festive season without being docked  
for lost time, and providing all mer-  
chants adhered to the rule general sa-  
tisfaction of this additional holiday  
would be expressed on all sides. We  
believe that it would be a good move

on the part of our local citizens if this  
matter were taken up immediately.

**THE EDITOR'S HOLIDAY**

The following is a clipping from the  
"Whig-Standard" at Kingston, Ont.,  
which has just been forwarded to us  
through the services of the Press Clip-  
ping Bureau, and we publish it for the  
enlightenment of our readers:—

"The editor and family leave on Sa-  
turday to spend a two-week's vacation  
at the former's home at Kaslo, B. C.,  
and while away the Chronicle office  
will be closed. At the present time the  
plant is not paying its way, so the  
little holiday ought to at least relieve  
that heavy feeling that we have all  
experienced over business depression."

This is the announcement that re-  
cently appeared in The Carbon Chro-  
nicle, of Carbon, Alta. We admire the  
frankness of the editor of The Chro-  
nicle. Despite the fact that the plant  
is not paying its way, and that the  
editor's children are probably going  
barefoot and the editor's table is not  
"groaning under a plentitude of deli-  
cious viands," as no doubt recorded in  
every issue of his paper regarding  
some picnic or other, he is still de-  
termined to keep the torch of learning  
ablaze, and to lighten the footsteps  
of the inhabitants of Carbon along the  
way by continuing each week to pub-  
lish The Chronicle.

It is of such stuff that editors are  
made. What care they for power,  
praise or pelf so long as they can con-  
tinue to serve? What care they that  
the plant is not paying so long as they  
are able to contribute to the happiness  
and contentment of the community.  
What a noble race of self-sacrificing  
fellows they are. Even now, while we  
here in Kingston are just recovering  
from the dissipation of last night's  
Rotary Bazaar, the sheriff may be sit-  
ting on the steps of the Carbon Chro-  
nicle awaiting the return of the editor  
and his family. But why say more?  
It is all too sad, too unutterably sad.  
We shall desist and weep.

Few are so deaf as to miss a whis-  
per of scandal.

**A FEW REGRETS**

(The Drumheller Mail)

As we congratulate the Alberta Gov-  
ernment Telephone System on the oc-  
casion of the switch-over to automatic  
telephones in the new exchange we  
have certain regrets at the loss of a  
certain amount of human contact  
which the old system provided.

There have been times when (under  
our breath) we have uttered certain  
uncomplimentary phrases after being  
connected to the wrong number, and  
at other times we have been sharply  
reprimanded for our indistinct speech.

In future, if we fail to carry our  
index finger to the recognized place  
on the automatic receiver, there will  
be nobody at the exchange to remind  
us that we are becoming careless in  
our telephone habits. Although it was  
sometimes humiliating to receive a  
sharp reprimand from the impersonal  
operator, we knew, deep in our con-  
sciousness, that it was deserving—  
that wrong numbers should not always  
be blamed on the young ladies who  
sat at the switch-boards, and that we  
ourselves were often responsible for

delays.

But what we shall miss the most is  
the cheery query: "Number Please?"  
and the optimistic assurance that if  
human effort could bring a response  
from the tardy individual on the other  
end of the wire that this service  
would be given.

**BEAT THEM TO IT**

The Christmas season will soon be  
upon us with all its joys of buying  
for the loved ones. It is one of the big  
buying seasons of the year.

All the big catalogue houses are  
alive to this fact and are flooding the  
country with their catalogues of "in-  
viting" offers.

There is only one way in which the  
local merchant can hope to combat  
this and that is by telling your cus-  
tomers what you have to offer, in  
plain, simple, convincing language.  
Make your store attractive, and when  
your customers call, see to it that you  
make them welcome and give them  
that service that will make them want  
to come back again.

If you do not tell them what you

have to sell, how can you expect them  
to come. Invite them and tell them  
what you have. Tell them the price  
and sell only such goods as you can  
stand behind. You will get the busi-  
ness. "Keep on telling them and you  
will keep on selling them."

A woman can't run as fast as a man  
but she generally catches him.

Mrs. Tick: "Why do you speak of  
your husband as a theory?"  
Mrs. Tack: "Because he so seldom  
works."

Waiter (to diner)—Are you the fil-  
leted kipper?"

Diner: "No, I'm a poor lonely soul  
with an empty place, waiting for  
something to fillet."

"My boy," said the school inspec-  
tor, "what's the plural of 'mouse'?"  
"Mice," said Jimmie.  
"Right," said the inspector, "And  
what is the plural of 'baby'?"  
"Twins!" said Jimmie.

### A BUYING GUIDE !

**B**EFORE you order dinner at a restaurant you consult the  
bill-of-fare. Before you take a long trip by motor-car, you  
pore over road maps. Before you start out on a shopping tour  
you should consult the advertisements in this paper. For the  
same reason!

The advertising columns are a buying guide to you in the pur-  
chase of everything you need—including amusement! A guide  
that saves your time and conserves your energy; that saves useless  
steps and guards against false ones; that puts the s-t-r-e-t-c-h  
in family budgets.

The advertisements in this paper are so interesting, it is diffi-  
cult to see how anyone could overlook them ..... fail to profit  
by them. Just check with yourself and be sure that you are read-  
ing the advertisements regularly—the big ones and the little ones.  
It is time well spent ..... always.

AVOID TIME WASTING, MONEY WASTING  
DETOURS ON THE ROAD TO MERCHANDISE  
VALUE. READ THE ADVERTISING "ROAD MAPS."

### WORLD HAPPENINGS BRIEFLY TOLD

Mrs. Edward Ellice, sister of Viscount Willingdon, Governor-General of Canada, died in London, December 3rd.

The Orient Express, Europe's crack train between Constantinople and Paris, was recently held up near Caribos, Bulgaria, by brigands, who killed two passengers and wounded several others.

The Japanese Government has declined to give its sanction to the United States Government's note to Russia or China regarding violation of the Briand-Kellogg anti-war pact in Manchuria.

It is rumored that the Labor Government intends to create more Labor peers, probably in the new year's honors list. There are now only 12 Labor peers and lords not all of whom are available for normal work in the upper chamber.

The French mint has been commissioned to strike a medal bearing the likeness of the late Georges Clemenceau. It was announced that Rodin's bust of the wartime leader will be placed in the Arc de Triomphe Museum.

An air mail service whereby a letter could be posted in Montreal one night and delivered in Winnipeg the next morning will be inaugurated some time next year, it has been announced by Hon. Peter Veniot, postmaster-general of Canada.

The London Daily Mail says that the accuracy of the report of Commander Richard Byrd, of his South Polar flight, has been challenged by Major Tryggve Gran, Norwegian airman and explorer, who was a member of the Scott Antarctic expedition.

Announcement was made by Hiram Walker, Gooderham, Worts Co., that a \$300,000 carbonic acid gas plant is to be installed in their plant at Toronto and that such units will later be installed at Montreal and other points. It is planned to manufacture what is known as "dry ice."

**Nation-Wide Fame.**—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

### Canada's Accredited Herds

Over Four Thousand Given Clean Bill Of Health

Upward of four thousand herds of cattle in Canada have been given full accreditation by the Department of Agriculture, at Ottawa, according to the report of the Veterinary Director-General for the past fiscal year, published by the Department of Agriculture, at Ottawa. That is to say, this number of herds have been dealt with by tests and retests and restricted measures which have given them a clean bill of health with respect to the disease of tuberculosis.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

### Commendation

Salesmen (showing customer some sports stockings): "Just the thing for you. Worth double the money. Latest pattern, fast colors, holeproof, won't shrink, and it's a good yarn."

Customer (politely): "Very well told, too."

### Will Represent Canada

Boys' and Girls' Swine Club Winners  
Banqueted By Canadian National Railways

Declaring that there was every reason to believe that they would bring back with them the world's championship in cattle judging from Great Britain next year, Hon. Dr. Motherwell, Federal Minister of Agriculture, gave words of sound advice, encouragement and congratulations to the three young farm lads who are to represent Canada in the 1930 International Judging Contest, at a dinner given in their honor at the King Edward Hotel at Toronto.

The three boys, Cedrick Kirkpatrick, Gordon Campbell, and Clifford Baldwin, from New Brunswick, Nova Scotia, and Ontario, respectively, were the central figures at the banquet given in honor of the Boys' and Girls' Live Stock Club contestants by W. D. Robb, Vice-President of the Canadian National Railways, under whose auspices the contestants visited Toronto. It is under the joint auspices of Dr. Motherwell's Department and the Canadian National Railways that the three boys will have the trip to Britain for the world contest next summer.

Both Vice-President Robb and Dr. Motherwell took occasion to congratulate the three boys who are the first to win the honor for Canada. The theme of Dr. Motherwell's address to them was "Service to others" in their future lives. There was no question, he said, that these boys, as well as all the winners in the boys' and girls' contests, would become leaders in their communities and there rested a great responsibility upon them in seeing that they carried on to others in coming years what had been handed down to them from the Federal, Provincial and Railway authorities. The Federal ministers said that this work was most valuable, and praised particularly what the Railway Company had been able to do for the young farmers.

Mr. Robb, in his annual address to the club members, said, that the winners being honored represented nearly six thousand farm club members in Canada, and the movement was growing. It had been invaluable in raising the status of the Livestock Industry in the Dominion, and the Railway was only too glad to be of service in this regard. Dr. Black, Director of Colonization and Agriculture, for the Canadian National Railways, told of the policy of his department to co-operate with the Federal and Provincial authorities in all movements for the improvement of agriculture.

Nearly one hundred agricultural officials from all over the Dominion were present at the dinner to honor the young farmers who had won the championships.

### Illusion Destroying Facts

Despite Peace Talk, Nations Are Continuing To Maintain Armaments

Says the Manchester Guardian: Fifty-five per cent. of the British budget goes to pay for past wars, and 15 per cent. to prepare against future wars—that is to say, war costs us 14s. in the pound. In France the proportions are almost exactly the same. Our present real expenditure on armaments is just as high as the average during the years 1909-1914. The same is true of France. Italy spends considerably more than she did in those years. Russia has been augmenting her expenditure on armaments steadily during the last few years, and is, in spite of her poverty and her reduced size, approaching the pre-war level. The United States beat all records—their expenditure on armaments has nearly doubled. Even Germany's performance is considerable—she is supposed to be "disarmed," and yet she now manages to spend a third of what she spent upon her colossal army and fleet before the war. The "economist" has done a public service in tabulating these illusion-destroying facts.

### New Dish For Her

Now that the season has arrived for the consumption of Belgian rabbits distinguished as juggled hare, the story is related of the deaf old lady who was seated at dinner beside a polite gentleman who did his best to make conversation. "Are you fond of bobbed hair?" he asked. "I can't say," she answered, "I never tasted it."

Russian peasants often sleep with their cattle.

### Exceeds Human Skill

Robot Reduces Risks Of Flying and Air Force Interested In Device

An infallible Robot airman, capable of controlling airplanes of all sizes in all kinds of weather with more dependability than the human pilot, has been produced by the scientists of the Royal Aircraft Establishment, the air correspondent of the London Daily News says.

The Robot pilot consists of a compressed air-driven gyroscope which controls pistons, rudder and elevators of any type of machine from the smallest single-seater to the large twin-engine bombers and flying boats. The gyroscope weighs 100 pounds and has been demonstrated successfully over distances of 400 miles, bowing to the human pilot only when 'planes must ascend or descend.

The Robot is claimed to be infallible and to minimize greatly the risks of flying. The Daily News correspondent said it was understood the Royal Air Force was contemplating adopting the device for use in future long distance flights and that commercial air lines were negotiating for the device for the purpose of installing it in passenger and mail 'planes.

### Air Mail Across Canada

Stated That Service Will Be Inaugurated Some Time Next Year

An air mail service whereby a letter could be posted in Montreal one night and delivered in Winnipeg the next morning, will be inaugurated some time next year, it was announced by Hon. Peter Veniot, postmaster-general of Canada.

Mr. Veniot pointed out that this route to Winnipeg, which would be via Toronto, was only a segment of the Montreal-Vancouver line, which he hoped would be established and would accomplish a saving of 40 hours over the fastest present delivery.

### More Using Electricity

Electrical energy consumed during the first nine months of the year by users of the City Hydro in Winnipeg, amounted to 262,000,000 kilowatt hours, an increase of 15 per cent. over the same period of last year.

## SUNDAY SCHOOL LESSON

DECEMBER 15

### THE CHRISTIAN SPIRIT IN INDUSTRY

Golden Text: "As ye would that men should do to you, do ye also to them likewise."—Luke 6.31.

Lesson: Exodus 1.8-14; 20.17; Deuteronomy 24.14, 15; Amos 5.6-15; Zechariah 8.16, 17; Matthew 20.1-16; Mark 12.1-9; Luke 3.14; Ephesians 6.5-9; 1 Timothy 6.17-19.

Devotional Reading: Matthew 7.1-5.

### Explanations and Comments

Laws Regarding the Treatment Of a Servant, Deuteronomy 24.14, 15.—The law in regard to the hired servant was that, whether an Israelite or of another race sojourning in their land, he must not be oppressed. He must be given his wages at the end of the day, for being poor, he was in need thereof; otherwise would he make known to Jehovah the failure and it would be accounted a sin unto the master.

The Obligation Of Servants and Masters, Ephesians 6.5-9.—In the time of Paul all servants were slaves, and here in his letter to the Ephesians he bids servants be obedient to their masters, with fear and trembling, that is, with anxious desire to please them, and with undivided allegiance, as unto Christ. Recall our text of last week, when Christ speaks of deeds done to others as done to Him. They should not give eye service, merely work that would "get by" with their human masters, but as slaves of Christ, do the will of God heartily; performing their tasks cheerfully as unto God, not unto men; knowing that the good work of every one, whether a slave or a free man, shall receive its reward from the Lord.

The masters likewise have their obligations; they also must show goodwill to their servants, and must avoid threats; knowing that the common Master of all is in heaven, and in His judgment there is no respect of persons, no regard for differences of earthly positions. "Paul does not tell them to emancipate their slaves; but he tells them to love them as brethren (Philemon 16). This does not free the slave, but it frees slavery of its evils."—Dummelow.

The Obligations Of the Rich, 1 Timothy 6.17-19.—Paul tells Timothy to charge the wealthy not to be conceited (highminded), not to set their hope upon riches which are uncertain, but upon God to whom they owe their good things. God giveth richly all things to enjoy. Christ came that we might have life, and that we might have it more abundantly. The rich should do good with their wealth, become rich in good works, ready to share, willing to communicate, and so lay up for themselves treasure in heaven.

### Authors Discover Canada

The Brantford Expositor finds that Canadian authors are more and more finding their characters in Canadian types and their scenes in Canada. All very good—for we are just a slice of humanity living in about as fine a bit of terrain as any race can boast.

### Twelve Years Of the Millennium

Condition Of People Of Russia After Twelve Years Of Bolshevik Rule

The Soviet government celebrated the twelfth anniversary of the Russian revolution, according to Moscow despatches, by giving "bread and meat at cost price to every member of the population holding bread cards."

After twelve years of Bolshevism, the right to buy a square meal at cost price for one day only is the greatest boon the Soviet government can confer upon the workers whom it dominates.

Among great masses of the population, apparently, meat as a complement of their daily bread is a luxury to be enjoyed only at such times as annual national holidays, and then sparingly and on a card-regulated allotment basis.

What a commentary on the inefficiency of communism! The political system that was going to make men free has only made men hungry paupers, waiting in line with their bread cards for the doles of meat that mark such special occasions as the birthday of their pseudo-freedom.—Minneapolis Journal.

### Really An "Air" Plane

A Russian aeronautical expert, Prof. Rindine, has a pet theory which claims that aeroplanes flying 30 or more miles high in the air need no fuel. He claims that an increased supply of hydrogen at that altitude could be exploded in a special engine and furnish power to propel the 'plane, thus running the 'plane on air.

When you see six women going into a barber shop together it means that one of them is going to get a haircut.

## WINDOLITE

MADE IN ENGLAND

### The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

## The Singing Fool

By HUBERT DAIL  
Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, but after he wins fame as a composer of popular songs, Molly suddenly elopes with John Perry, Al's best friend. The couple take Al's two year old baby, Junior, and sail for France. Al, completely broken by his loss, disappears from Broadway and becomes a derelict. Months later he appears at Blackie Joe's club, where Grace Farrell tries to shame him into staging a comeback by telling him she will tell his boy later how he drifted downward. In a rage, Al threatens to kill her.

### CHAPTER XXV.

Now Al was in front of Grace; his thin hands reached toward her throat, but she did not flinch or make a sound. She felt the lean fingers go round her white throat, while the haunting, terrible eyes rose on a level with her own, then above her. The fingers tightened—he was pulling her closer to him. She half closed her eyes—well, if he wanted to kill her, let it come. She loved him still—she knew it at this fateful moment.

But as Al felt her graceful young body against his own the instinct of the killer subsided—She was young and beautiful, and—suddenly the reason for her harsh attitude became apparent to even his disordered mind. She was doing it to help him. The tension in him snapped, his hands loosened about her throat, and his head was buried against her breast. As she felt him sagging Grace's arms went round him, holding him close. Her radiant face was lifted in a prayer of thanks.

She could only think of one thing, she loved him, she was going to pull him back to courage and life! Finally his head came up.

"I'll do my best, Gracie! I'll make good—I'll show my kid his daddy isn't a flop!"

At that moment Blackie appeared at the door, took one look, and tipped away.

Al stared at Grace. "I can do it if you'll stand by," he suggested.

Grace nodded. "You can count on me Al," she whispered tenderly.

As Al spoke Grace realized the full significance that lay behind his words. He was saying that his comeback depended on her, but he was also suggesting something more—that he wanted her in his life. Did that mean that he loved her—at last?

Her lips trembled and she reached up to stroke his hair. His hair hadn't changed, at any rate. It was

the same thick, lustrous black it had always been. She was confused and embarrassed, and she felt tears filling her eyes in spite of her efforts to fight them down. Then Al's face became misty before her.

"Everything will be all right, Al," she whispered. "You've got the stuff—we both know that."

She was really talking to fight her way back to self-control. She realized now the fearful price she had paid in desperately striving to put Al out of her thoughts during these past three years. The effort had taken terrific toll from her emotional nature; no wonder the knowledge that Al needed her and asked her to stay close to him produced a shattering reaction.

Some vague feeling of this reached the young song writer, but he couldn't be sure of the cause. He saw Grace's beautiful eyes dimmed by tears, but for all he knew this display of intense emotion on her part might come from a merely maternal feeling or from the generous spirit that made Grace feel kindly toward almost everybody. He had never known that she loved him.

"Gracie," he said, "I did write a song several months ago, but I thought it wasn't any good, so I put it away. But I know how it goes. Would you like to hear it?"

"Of course I would, Al," Grace answered quickly, glad of an escape from her own highly charged feelings. "Sit down at the piano—try it."

Al moved hesitatingly toward the piano. "I'm not sure I can even play it—my fingers are like bread sticks. But I'll try."

He pulled the stool up to the keyboard and ran up and down the scales in preparation. Already, it seemed to him, his fingers were more supple and stronger. But of course he now had a reason for playing.

"It's called 'Among My Souvenirs' and it starts like this:"

The song began, Al's voice matching the pathos of the words. Grace leaned against the piano, chin in hand, a rapt expression on her face. Now the mist of tears had passed. She was able to see Al clearly and she made no attempt to hide her joy in his presence.

His voice came waveringly at first, then stronger. Grace made a mental note; that golden voice that ran the emotional scale so easily from humor to tragic sentiment was just as flexible as ever. If anything, its emotional quality had been deepened by his tragic experiences.

Grace was thrilled, first by the song, then by the gaze of affection that Al fixed on her. The listless look had passed from his eyes, he had forgotten his stiff, sore fingers. He had lost himself in the song and in the vision of Grace before him, so that the change of his face made him a different man from the derelict who had staggered into Blackie's place an hour ago. In that flashing moment he almost became the old Al.

The last note of the song ended, and suddenly Al slumped down on the piano stool, burying his head in his crooked arm on the keyboard. The strain of singing and playing was too much for him.

Grace came around the piano rapidly, putting her arms about him, whispering in his ear:

"There, there; I know it's hard at first. But the song is beautiful. It will be a success—I know it! And it's only your start."

"Do you think so, Gracie?" Al raised his head. "Do you really think so?"

"I'm sure of it." Then Grace turned. Blackie was in the doorway again.

"Did you hear it?" she whispered. "Yep," Blackie nodded. "It's a wow. One of his best."

Blackie was fairly beaming. When Al wasn't looking, he beckoned to Grace to slip away for a moment. Then he went back to the main room and waited for her.

"I can see you've pulled him out of it," whispered Blackie, "but how on earth did you do it?"

Briefly Grace explained. Blackie patted her approvingly on the shoulder.

"You're a smart kid, Grace, and I hope Al appreciates you. You've made a good start, but you know it will be awfully easy for him to slip back again. Make him find himself a decent place to live and make him buy himself some decent clothes. That helps a lot."

"Sh-h!" Grace put her finger to her mouth, afraid Al would hear. "I won't let him slip back—you leave him to me."

Blackie chuckled as Grace hurried

**Imitations won't do/ get Mathieu's Syrup**

The J. L. Mathieu Co., Props., Sherbrooke, Que.

back into the room with Al; already she was assuming a possessive manner toward the man she loved. Well, thought Blackie, he couldn't be in better hands!

It was morning—again the customers had all left, the chairs were piled on the tables and the scrub women were busy cleaning up. Again the windows of the main room were thrown open, allowing the stale smoke from cigars and cigarettes to drift outside in silver spirals.

"Al, you should be going home to get some sleep," said Grace gently. "May I walk along with you?"

"Of course, Gracie. Let's go."

As they started for the main room Grace glanced down the dressing room corridor. She recalled that morning more than three years ago when she had overheard Al and Molly planning marriage. Then she had run away to hide her tears. How similar this morning was, yet how different.

Now she was walking home with Al, and he had begged her to "stand by."

Down the narrow stairs they went, but when they reached the street Al swayed for a moment. Grace took his arm.

(To Be Continued.)

## IS THERE A BABY IN YOUR HOME

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moise Cabotte, Makamik, Que., writes: My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### New System Of Radio Sending

Transmission Of Entire Newspaper Page May Be Possible

A new system of radio communication by which it is claimed congestion of ether will be completely solved and by which cheap, high speed transmission of photographs of entire pages of a newspaper may be possible, was described at a dinner of the British Radiostat Corporation in London.

The inventor of the new system is Dr. James Robinson, formerly chief of wireless research of the British Royal Air Force. Robinson's device, known as the Stenode Radiostat System, it was claimed, will permit radio telephone to be received on a frequency band of 10 cycles or less compared to the present day practice which involves a frequency band of more than 9,000 cycles.

The device, speakers said, will not make it necessary to scrap existing sets but instead will increase greatly their utility by giving great impetus to the radio industry.

### Dance Floor By The Yard

A portable dance floor has been introduced in London, England, which will offer a perfect dance floor to anyone desiring to move from place to place. It is made up of strips of wood firmly attached to a strong canvas backing. It can be rolled up like a carpet and costs about as much per yard as a good rug.

Only three towns with a population of more than 300 are to be seen along the 500 mile stretch of the Alaska railway.

Minard's Liniment for Distemper.

### Byrd Making History

First Man To Fly Over North and South Poles

The New York Times, the St. Louis Post-Dispatch and newspapers affiliated with them, in publishing reports from Commander Richard E. Byrd's expedition, announce that Commander Byrd had safely returned to his base, Little America, after a successful flight across the South Pole, in which he surveyed much adjacent territory.

Commander Byrd's flight across the South Pole has made him the first man in history to fly across both the earth's poles.

In May, 1926, in the tri-motored aeroplane, the "Josephine Ford," Commander Byrd flew from King's Bay, Spitzbergen, across the North Pole and returned.

That springtime flight required a total of 15 hours and 30 minutes and the round trip covered 1,600 miles. In addition to being the first to fly across the North Pole, Byrd was also the first man to fly over it in a heavier than air machine. On that historic flight, his pilot was Floyd Bennett, who died April 25, 1928, while attempting to rescue the crew of the trans-Atlantic plane "Bremen" on Greenley Island. Bennett was second in command of the Byrd Antarctic expedition and had intended to accompany the commander on the trip.

The flight across the South Pole, was the first attempt he had made to fly to the pole, although previously he had used aeroplanes in flights from his base at Little America in laying sub-bases on the route to the pole and in exploration trips.

He was the third man to reach the South Pole. The first was Roald Amundsen, a Norwegian, who reached it December 14, 1911. A few days later he was followed by Captain Robert F. Scott, British explorer. Both of them used overland methods of travel.

Minard's Liniment for Chapped hands.

### Has Become Popular

Rayon Is Manufactured In Nearly Every Country In World

Rayon was a product little heard of ten years ago. Today this substitute for silk is manufactured in nearly every country on the globe. The largest rayon holding company in the world has just been incorporated in Maryland with a capital of \$60,000,000. It has interests in six countries.

Last year the United States produced more than 107,000,000 pounds of rayon alone, or about twice as much as its nearest competitor, Italy.

The first balloon made its ascent in France in 1783—the year England recognized the independence of America.

## Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

acts 2 ways at once

### Little Helps For This Week

"Teach me to do Thy will; for Thou art my God; Thy Spirit is good; lead me into the land of uprightness."—Psalm cxliii. 10.

Though one but say  
"Thy will be done,"  
He hath not lost his day  
At set of sun.  
—Christine G. Rossetti.

It is not always easy to discern the will of God; but if the fountain of our life is kept pure, the water of life must flow from it and our day's work contribute to the great stream of life that flows out from the city of God for the healing of the nations; and in this stream all our own little trials get turned into gold.—Harriet Mossell

### A Lonely Family

That they have the loneliest home circle in Australia, possibly in the world, is the claim of the family of M. Gunn, telegraph operator at the Cape York station, in the farthest north point in Australia. On one side are hundreds of miles of impenetrable bush and on the other leagues of shark-infested sea. In the last three years the Gunns have seen only 20 people.

## THEATRE

FRIDAY AND SATURDAY  
DECEMBER 13th AND 14th

LAURA LAPLANTE

— IN —

## "Scandal"

Flung into the mad whirl of society's fastest set, she battled for the right to happiness with woman's oldest weapon. But the poison-drooling tongue of SCANDAL licked at her life. Was a life-time of Truth as nothing against one minute of Lies? See this absorbing drama of a beautiful girl who fought society's snares only to become the central figure in a murder mystery which set all society aghast at its scandal—and its daring.

DON'T MISS IT

## GRIPPING SOCIETY DRAMA OF YOUNG WOMAN'S STRUGGLE

Laura La Plante will be seen at the Carbon Theatre on Friday and Saturday of this week in a dramatic picture entitled "Scandal." It is based on "The Haunted Lady," a gripping society scandal story by Adela Rogers St. Johns which appeared in the Cosmopolitan Magazine.

Wesley Ruggles, a veteran impresario of motion picture suspense and entertainment, directed the picture. It gives Miss La Plante a new type of role, differing considerably from her parts in such mystery stories as "The Cat and the Canary" and "The Last Warning" and from her former Comedy-drama roles. Also she made it after completing her great role as Mongolia in "Show Boat," with its months of training and varied characterizations.

The story tells how a girl of moderate circumstances rises above her position and marries a wealthy society favorite. Then comes a hand from the past to drag her back and she finally is forced to risk her husband's respect by baring a scandalous situation, or seeing a third party go to prison unjustly. How she faces this decision makes one of the strongest scenes ever screened.

## NOTES FROM ANNUAL MEETING OF ALTA. WHEAT POOL

The past year has been one of marked progress for the Alberta Wheat Pool. The annual report shows an increase in membership during the year of 5,819. Total membership at October 31, 1929 was 40,915 with 4,625,209 acres under contract.

The cost of operating the Alberta Wheat Pool during the last year was a little over half a cent a bushel, or a total of \$349,068.89. The handling of wheat totaled 67,444,356 bushels.

The delegates assembled at the annual meeting expressed themselves as opposed to a compulsory pool by an overwhelming vote. A resolution was passed making the objective of the voluntary pool 100 per cent of the grain growers of the province and urging that every effort be made to attain that desired end.

The report of the Central Selling Agency showed the carryover from the 1928 crop year to be a little over 48 million bushels of wheat. The Canadian Pool handled 253,102,585 bushels of wheat during the 1928-29 crop year. Of this total 198,140,608 bushels were exported to 19 countries.

George Melvor, sales manager of the Canadian Wheat Pool, in his report to the delegates stated that the Pool's operations during the past year had undoubtedly prevented serious market slumps, that the wheat yield in the world for the 1928 crop was a record for all time and British grain merchants were of the opinion that wheat should be selling on the basis of 99 cents at Winnipeg.

The delegates' meeting went on record as favoring continuation of the elevator building program in order to give as far as possible elevator service to the bulk of the membership.

The elevator system during the past
